| <p>Audience and Purpose</p> | <p>My classmates and Professor Brown will be the audience because maybe they want to understand Air fryer better?</p> |
| <p>Definition and Function</p> | <p>It is an air fryer. It can used to deep fried food. It is purpose is to fry foods with less or no oil.</p> |
| <p>Overview</p> | <p>a small countertop convection oven, the size varies but it is about 50*50. And it can be any colors.</p> |
| <p>Components and Explanations</p> | <p>Consist of 3 main components: air fryer base, basket, and basket base. Basket base is to hold the food, the basket is used to hold the basket base and to collect the oil from the food. The air fryer base is to dry out the food. So the basket base is being put into the basket, and the basket is being push into the air fryer base.</p> |
| <p>Visuals</p> | <p>What kind of illustrative graphics will you use? Where?</p> <ul style="list-style-type: none"> • Diagrams  <ul style="list-style-type: none"> • Photographs |
